RANCHES

14TH ANNUAL SALE

MARCH 18 . 2023

SATURDAY AT 1:00PM

BOW SLOPE SHIPPING

Welcome

We would like to invite you to our 2023 14th Annual Bull Sale.

In 2022 we had to make a very hard decision to sell most of our cow herd. We have kept all of our older cows as well as our recip cows. We are calving about 80 cows this year.

We have found a wonderful partner to keep our annual sale going – Meadow Bridge Angus.

This sale offering has some new genetics for you, our customers. From Musgrave Colossal, Crescent Creek Next Step, SAV blood line & JL Rain Fall. This year's offering has something for everyone. There are big power bulls as well as many calving-ease bulls for those ranchers who would like to breed heifers. The bulls are developed on a sensible roughage-based ration express longevity and breeding soundness.

We have an excellent selection of bulls on offer, and we are confident once you see them you will agree. All of the bulls have received the foot rot vaccine, have been BVD tested, and have been semen tested. All bulls on offer are 100% guaranteed.

We are truly humbled and honored to have so many cattlemen support our program. The bulls will be at Bow Slope Shipping in Brooks on March 17th for viewing starting at 5:00 pm. Please join us sale day, March 18th 2022, at noon for a steak lunch at Bow Slope, the sale will follow at 1:00 pm. All are welcome to stay after the sale for some refreshments.

If you are unable to attend the sale in person there are a few options available to ensure you get the bull that fits your needs. DLMS will be on site, call Mark Shologan at 780-699-5082 to register for online bidding. You can also contact one of our sales staff to help you with your purchase.

We at Bandura Ranches would like to thank all of you for believing in our program – see you on sale day!

Sincerely,

Joe, Sandy, Jordon and Vescha Bandura

Bandura RANCHES 14TH ANNUAL BULL SALE

MARCH 18, 2023 | SATURDAY | 1:00PM | BOWSLOPE SHIPPING

SCHEDULE

Friday, March 17, 2023

Friday night viewing of the bulls at Bow Slope Shipping.

Saturday, March 18, 2023

Please join us for an Angus steak dinner starting at noon.
14th Annual Bull Sale at 1:00pm.

CATALOGUE

Catalogue and videos of the bulls are available online at:
www.banduraranches.com and www.cattlevids.ca

PREVIEW THE BULLS

Bulls can also be viewed prior to the sale at Bandura Ranches.
Visitors always welcome!

INSURANCE

If you plan to leave your bull with us we ask that you insure him.
Insurance representative will be available sale day.

Larry Toner, Kelfield, SK
306.932.4866 or 306.834.7652
Email: larrytoner@xplornet.com

TERMS

Payment due at time of purchase. All cattle sell under the standard terms and conditions of the Canadian Angus Association. EPD's in this catalog are the most recent available at press time. Any announcements made sale day supersede information printed in this catalog. The bulls will be semen tested, kept after the sale, delivered and fully guaranteed. Scrotal circumferences and current weights available sale day. The sellers reserve the right to collect semen on any bull for in-herd use only at the seller's expense and buyers convenience.

ONLINE PURCHASING

We invite those of you who are unable to attend the sale to be part of the action! With the help of Direct Livestock Marketing Services, we are able to give you a live connection to the event. Real-time bidding will be available via the internet for this sale. Live audio and video will allow buyers to bid on animals as if they were present at the sale. Instructions for viewing and bidding are as follows:

1. Visit www.dlms.ca
2. Fill out the registration form located under 'registration'.
3. Click on 'downloads' and follow the four step instruction on the screen.
4. Click 'test your computer.' You will see the 'Test Video' and 'Bid Control' box. To be approved as a bidder or any other questions please email Mark at mshologan@dlms.ca or 780.699.5082

UNDERSTANDING ULTRASOUND

CUTABILITY (%LMY) Cutability is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the USA. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

Ultrasound data was scanned by Jamie Jensen, a certified UGC and CUP technician, meeting standards set by many breed associations. The accuracy is high enough that bulls selected based upon ultrasound, result in positive genetic change in progeny carcass traits. Heritability for carcass traits are moderate to high which is slightly higher than birth weights, weaning weights and yearling weights.

Below 2.30.....Single A.....Standard
2.30-3.99.....Double AA.....Select
4.00-9.89.....Triple AAA.....Choice

BACK FAT (BF) Fat depth decreases lean meat yield. Fat bulls have less lean meat/muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, and rebreed and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

RIBEYE AREA (REAin2) The ribeye is the largest muscle in the body at birth so REA gives an indication of overall carcass muscling.

MARBLING (MARB) Marbling is the best indicator we have to tell us what kind of beef eating experience we will have! Research shows that average AAA and above marbling produces the most satisfied customers. As marbling increases, so does the juiciness, the flavour fullness, and the tenderness.

SUMMARY Like all traits, we should avoid the extremes. Moderation is the key. As producers we need to evaluate our own females and then decide what kind of progeny we want to produce. This should dictate what kind of sire we want to purchase.

Ultrasound by
Jamie Whitney, Maple Creek, SK
403.892.3486

RANCHER'S GUIDE TO EPD'S

The bull is merely a delivery system for the genetics he passes on. Performing this job requires them to be sound, fertile and athletic. However, it is the reliability of their genetic predictions that ultimately bear out their true value to producers' bottom line.

Know the markets you wish to hit – feeder calves, yearling, replacement females. Have a true appraisal of how close your cow herd is to that target, understanding your cows have to continue to live and reproduce in your environment. Identify bulls whose EPDs predict the ability to move your cowherd in the right direction for the traits required to hit your market end point.

BLACK ANGUS AVERAGE EPD'S FOR CALVES BORN IN 2022

Here is a walking bull that we purchased half interest in, we have only used him on our heifers and have been very happy with his first calf crop. We think you will like what you see sale day as well.

Here is a cow bull with a little bigger birth weight, but we feel he is built right, long as a freight train. He will be a true cow maker - his dam has a great udder and great temperament. His sires dam was in the donor program for Schaff Angus.
